Service Delivery Project For Prevention & Combating of HIV & AIDS among the IDUs & Non IDUs in Quetta & Kuchlak

It was feared that after completion of a World Bank/PACP funded project of Service Delivery in June 2008 for prevention of HIV and AIDS among IDUs / DUs in Quetta could create a huge services gap having not been extended even identical projects in other provinces were extended. A huge gap could have created regarding the provision of services to their clients but UNHCR came to the rescue and offered for the funding of the project for both refugees and local clients of IDUs/DUs initially in Kuchlak for the period of 6 months initially as a pilot project from July to Dec. 2008 and after successful completion it was awarded with expansion to Quetta from Jan2009 with full fledged services for IDUs/DUs through their established DIC & Detoxification centers accordingly. This project has now been further extended to Dec. 2010 after satisfactory performance.

The current project is being implemented under the new project management team which is technically more qualified and experienced as compared to the previous team whose performance was recorded as below expectations.

Some of the services interventions during Jan to Dec.2009 are as under:

SERVICE & INTERVENTIONS

1. Medical Service	Targets			Achievements		
	Quetta	Kuchlak	Total	Quetta	Kuchlak	Total
1.1 PHC	3500	2000	5500	3733	2245	5978
